Data Glossary

Data Table List:

AIDEAdvEvent	Adverse Event Form
AIDEBDEFS	BDEFS survey data
AIDECGMTraining	Listing of CGM Training and Evaluation crf data
AIDECompleteVisit	Listing of complete the visit crf forms
AIDEDeviceCGM	CGM data from Dexcom Clarity export
AIDEDeviceExpTrain	Listing of participant device experience and training crf data
AIDEDeviceIssue	Device Issue Form
AIDEDiabDKAEvent	DKA Event Table
AIDEDiabHypoEvent	Hypoglycemic Event form
AIDEDiabLocalHbA1c	Local HbA1c form
AIDEDiabMedHistory	Medical History Updates form
AIDEDiabPhysExam	Collects Diabetes Physical Exam Form data
AIDEDiabScreening	Collects Diabetes Screening Form data
AIDEDiabSocioEcon	Diabetes Socioeconomic Information form
AIDEDiabTreatment	Collects Diabetes Treatment Form data
AIDEDiabUnschedContact	Diabetes unscheduled contact form
AIDEEligSrcDataCapt	Captures Eligibility Source Data
AIDEExtInitiation	Listing of Extension Initiation crf data
AIDEExtPhaseEnd	End of Extension Phase crf data
AIDEExtUnschedVisit	Extension Phase Unscheduled Visit crf data
AIDEFiveMinMoCA	5 Minute Montreal Cognitive Assessment form data
AIDEFollowUpContact	Follow Up Contact crf data
AIDEFollowUpVisit	Follow Up Visit crf data
AIDEFrailAssess	Frailty Assessment Form

AIDEFunctionalActivities	Functional Activities Survey data
AIDEHypoConf	Hypoglycemia Confidence Scale Survey data
AIDEHypoFearAdult	Fear of Hypoglycemia in Adults survey data
AIDEInsulin	List of all types of insulins for patient
AIDELifeDiabSelfMgmt	Lifestyle and Diabetes Self Management Form
AIDEMedicalCondition	Medical Condition Form
AIDEMedication	Medications Form
AIDEMoCA	Montreal Cognitive Assessment test form
AIDEProsRetroMemory	Prospective-Retrospective Memory Survey data
AIDEPtFinalStat	Final Status Form
AIDESAPEvaluation	SAP Evaluation crf data
AIDESAPInitiation	SAP Initiation crf data
AIDESAPTrainingContact	SAP Training Contact CRF data
AIDESymSrchDSCT	List Symbol Search and Digit Symbol Coding Test data
AIDESystemUsability	System Usability survey data
AIDET1Dds	Diabetes Distress Scale survey data
AIDETandemCGMDATAGXB	CGM Data from Tandem Pump
AIDETechAccept	AIDE Technology Acceptance survey data
AIDETrainOnPeriodTreat	Training on Period Treatment crf data
AIDEUnanticipatedPrb	Form to collect an unanticipated problem that is related to a participant
AIDEUnschedVisitContact	Listing of all Unscheduled Visit Contact forms
AIDEVisitInfo	Visit Information Form
DeviceIssueReview	Medical Monitor Review of Device Issues
PtRoster	Patient Roster
STASampleResults	Sample results data
cgmAnalysis	Analysis dataset containing CGM readings used to calculate CGM metrics for the randomized crossover phase
cgmAnalysisExt	Analysis dataset containing CGM readings used to calculate CGM metrics

	for the extension phase
gluIndices	Analysis dataset containing CGM metrics for the randomized crossover phase
gluIndicesExt	Analysis dataset containing CGM metrics for the extension phase

Data Table Details:

AIDEAdvEvent

Description: Adverse Event Form

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Patient Identifier			
ParentLoginVisitID	Unique ID for the Visit			
AENotifiedDt	Date notified of/identified adverse event			
MedicalCondition	Medical Condition			
MedicalConditionMM	Medical Condition determined by the Medical Monitor			
AdverseEventType	If ocular event, select eye			OD = Right Eye, OS = Left Eye
AEOnsetDt	Date of onset (or worsening of a pre-existing condition)			
AEPrEnroll	Is the adverse event a worsening of a pre-existing condition present prior to study entry			Yes, No
AENotedStdyVisExam	Was the adverse event an abnormality (or worsening of an existing abnormality)			Yes, No

	identified on a study visit exam			
AEIntensity	**Maximum intensity (Severity)**			**Mild, Moderate, Severe**
AEEffectTrt	**Effect on study treatment/device**			**No change, Discontinued temporarily, Discontinued permanently, Reduced dose, Reduced use frequency/schedule**
AESerious	**Does the event meet criteria for a serious adverse event**			**Yes, No**
AETrt	**Did patient receive treatment for the Adverse Event**			**Yes, No**
AESurg	**Surgery/procedure**			**Yes, No**
AESurgDt	**Date of surgery/procedure**			
AEMedsList	**If yes, list medications here**			
AEOthTrt	**Other Treatment of Adverse Event**			**Yes, No**
AEOutcome	**Outcome**			**Ongoing (further improvement / worsening possible), Ongoing, medically stable, Complete Recovery, Recovered with Sequelae, Fatal**
AEResDt	**Date of Recovery (with or without sequelae)**			
AEDeathCause	**Cause of death**			
AEDeathDt	**Date of Death**			
AEDeath	**Criteria Defining Event as Serious Adverse Event: Death**			**1 = Checked**

AEConAnomaly	**Criteria Defining Event as Serious Adverse Event: Congenital Anomaly**			**1 = Checked**
AELifeThreat	**Criteria Defining Event as Serious Adverse Event: Life Threatening**			**1 = Checked**
AEHosp	**Criteria Defining Event as Serious Adverse Event: Hospitalization -- inital or prolonged**			**1 = Checked**
AEDisability	**Criteria Defining Event as Serious Adverse Event: Significant Disability or Incapacity**			**1 = Checked**
AEOther	**Criteria Defining Event as Serious Adverse Event: Other**			**1 = Checked**
Weight	**Weight**	**0**		
WeightMeas	**Weight Measurement**			**lbs, kgs**
WeightNotAvail	**Weight: Not available**			**1 = Checked**
AERelLabData	**Relevant Tests/Laboratory Data**			**Yes, No**
AEOthRelHx	**Other relevant history, including preexisting medical conditions (e.g., allergies, pregnancy, smoking and alcohol use, hepatic/renal dysfunction, etc)**			**Yes, No**
AEMedProd	**Concomitant medical products and therapy dates (exclude treatment of event)**			**Yes, No**
MMAERelStdyTrt	**MM Is there a reasonable possibility that the event was caused by a study treatment/study device**			**Yes, No, Unrelated, Unlikely related, Possibly related, Probably related, Definitely related, Not assessable**
MMAESerious	**MM Does the event meet**			**Yes, No**

	criteria for a serious adverse event			
MMUnexpected	**MM Was the event Serious/Related Unexpected**			**Yes, No**
AERelStdyDrugDevice	**What is the relationship of the event to study drug/device**			**Unrelated, Unlikely related, Possibly related, Probably related, Definitely related, Not assessable**
MMHospDiscRptObtained	**MM Hospital Discharge Reports Obtained**			**Yes, No, Not Requested, No, Requested Not Obtained**
AERelStdyDrugDeviceHighLvl	**If possibly, probably or definitely related, to which of the following was the adverse event possibly/probably/definitely related**			**Study drug (drug effect), Other study treatment, Study device (function), Administration of study drug/device, Prep for the administration of study drug, Study diagnostic procedure, More than one of the above**
MMAERelStdyTrtHighLvl	**MM To which of the following was the adverse event possibly related**			**Study drug (drug effect), Other study treatment, Study device (function), Administration of study drug/device, Prep for the administration of study drug, Study diagnostic procedure, More than one of the above**

MMInitialCmtsDt	MM Date Initial Comments entered			
AEMedEvent	Criteria Defining Event as Serious Adverse Event: Significant Medical Event			1 = Checked
MMRelatedUnexpected	MM Was the event related unexpected			Yes, No
AEOngoing	Adverse Event Is Ongoing (Not Recovered/Not Resolved) at Time of Completion or Withdrawal			1 = Checked
MMSeverity	MM Level of Severity (based on NCI)			Mild, Moderate, Severe, Grade 1, Grade 2, Grade 3, Grade 4, Grade 5
MMRptAEPerProt	MM Is this a reportable adverse event per protocol requirements			Yes, No

AIDEBDEFS

Description: BDEFS survey data

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Participant ID			
SurveyName	Survey Name			
SurveyVisit	Survey Visit			
Q1				
Q2				
Q3				
Q4				

Q5				
Q6				
Q7				
Q8				
Q9				
Q10				
Q11				
Q12				
Q13				
Q14				
Q15				
Q16				
Q17				
Q18				
Q19				
Q20				
CompletionDt	Date survey module was completed			

AIDECGMTraining

Description: Listing of CGM Training and Evaluation crf data

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Participant ID			
ParentLoginVisitID	Unique ID for the Visit			

Visit	Visit			
ReadyForSAPInit	Is the participant ready to move on to SAP initiation			Yes, No

AIDECompleteVisit

Description: Listing of complete the visit crf forms

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Participant ID			
ParentLoginVisitID	Unique ID for the Visit			
VirtualVisit	Was the visit completed virtually			Yes, No
VirtualVisitFormat	Select the format of the virtual visit			Audio-Video, Telephone, Other
KitShippedDt	Date kit shipped to participant for virtual visit			
SampleCollectDt	Date participant collected sample for virtual visit			
PtHypoKnowledge	How does the participant rate their knowledge of when their hypos are commencing			1, 2, 3, 4, 5, 6, 7
NoTraining	Check here if no training			1 = Checked
TrainPumpInsert	Training on issues with pump insertion/trouble shooting infusion sets	0	240	
TrainPumpCartridge	Training on issues with pump cartridges	0	240	
TrainPumpDoseBolus	Training on using pump to dose insulin/bolus wizard	0	240	

TrainSensorInsert	Training on sensor insertion	0	240	
TrainPairTransmit	Training on pairing transmitter	0	240	
TrainDownldPump	Training on downloading pump to t-connect	0	240	
TrainDexClarity	Training on Dexcom Clarity application	0	240	
TrainGeneralTech	Training on technology in general	0	240	
TrainOther	Other training	0	240	
NoReview	Check here if no review of data/diabetes management			1 = Checked
ReviewAutoInsDeliver	Reviewing how automation of insulin delivery works	0	240	
ReviewRatiosCorrectFact	Reviewing adjusting insulin to carb ratios and correction factors	0	240	
ReviewOther	Other review	0	240	
CogIssuesImpactTime	In your assessment, did cognitive (e.g., memory/learning) issues impact the amount of time spent with the participant			Yes, No

AIDEDeviceCGM

Description: CGM data from Dexcom Clarity export

Data Source: Dexcom Clarity export

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Participant ID			
ParentAIDEDeviceUploadsID	RecID from tblAIDEDeviceUploads			

SerNum	Serial number of the device			
TransmitterID	Dexcom Transmitter ID			
DataDtTm	Device date and time			
InternalDtTm	Dexcom Internal date and time			
DataDtTmAdj	Adjusted device date and time			
RecordType	Type of data (CGM, Calibration, etc)			
GlucValue	Glucose reading			
Units	Glucose units			
TransTime	Dexcom Transmitter time			
SortOrd	Sort order for the data from the file or upload			
Unusable	Flag indicating that record is unusable			
UnusableReason	Reason why record is unusable			

AIDEDeviceExpTrain

Description: Listing of participant device experience and training crf data

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Participant ID			
ParentLoginVisitID	Unique ID for the Visit			
CGMAvail	Does the participant currently use a real-time personal CGM			Yes, No
CGMTimeBelow70	What is the percentage of time glucose levels were < 70 mg/dL during the previous	0	100	

	14 days			
CGMAddlTrain	Does the participant need additional CGM training before proceeding to the SAP initiation visit			Yes, No
ReceiverSN	Dexcom G6 receiver serial number			
TransmitterSN	Dexcom G6 transmitter serial number			

AIDEDeviceIssue

Description: Device Issue Form

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Patient ID			
ParentLoginVisitID	Unique ID for the Visit			
InvDevice	Investigated Device			
DevSerialNumber	Serial number			
DevSerialNumberNone	No serial number information			Unknown, N/A
DevIssueType	Type of device issue			Device malfunction, Device-related, but not malfunction, User error, Study staff user error, Inadequate instructions / training, Inadequate labeling, Other, Skin reaction
DevIssueOnsetDt	Date problem first			

	occurred/was identified			
DevIssueLocation	Location of Occurrence			Home, Inpatient, Clinic (outpatient), Other
DevIssueFrequency	Frequency			Single Event, Intermittent, Continuous
DevIssueEffect	Effect on study treatment/device			No change, Study device modified/adjusted, Study device replaced, Discontinued temporarily, Discontinued permanently
DevIssueReplacedDt	Date replaced or modified device first used by participant (leave empty if not applicable or not yet used by subject)			
DevIssueAE	Is the device issue related to an adverse event			Yes, No
DevIssueAELikely	If no, please describe the likelihood that the device issue could have led to an adverse event			Not assessable, Not possible, Unlikely, Possibly, Probably, Certainly
DevIssueUADE	Can the device deficiency or issue be classified as an Unanticipated Adverse Device Effect (UADE)			Yes, No, Uncertain
DevIssueAELikelyHypo	What adverse event could have occurred: Hypoglycemia			1 = Checked
DevIssueAELikelyHyper	What adverse event could have occurred: Hyperglycemia			1 = Checked
DevIssueAELikelyOth	What adverse event could			1 = Checked

	have occurred: Other			
ParentLoginIDAdvEvent	Adverse Event			

AIDEDiabDKAEvent

Description: DKA Event Table

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Participant ID			
ParentLoginVisitID	Unique ID for the Visit			
DKAOccurDt	Date of Event			
DKAOccurDtApprox	Date of event is approximate			1 = Checked
DKAOccurDtUnk	Unknown: Date of event			1 = Checked
DKAMetCriteria	Did event meet study criteria listed above for DKA			Definitely, Probably, No, Cant deter
GlucLevel	Glucose level			
GlucLevelUnits	Glucose Units			mg/dL, mmol/L
GlucLevelUnk	Unknown: Glucose level			1 = Checked
KetoneResUnk	Unknown: Ketone Result			1 = Checked
KetoneSerum	Ketone result: Serum			
KetoneSerumUnits	Ketone result: Serum units			mg/dL, mmol/L
KetoneUrine	Ketone result: Urine			Negative, Small, Medium, Large, Extra Large
HCO3	HCO3			
HCO3Unk	Unknown: HCO3			1 = Checked
pH	pH			
pHSample	pH Sample			Arterial blood,

				Venous
pHUnk	Unknown: pH			1 = Checked
BUN	BUN			
BUNUnk	Unknown: BUN			1 = Checked
CerebEdema	Symptomatic cerebral edema			Yes, No, Unknown
EventCauseStdyDev	Is there any evidence that a study device (e.g., blood glucose meter and/or HHM) contributed to the event (either device malfunction or improper use by user)			Yes, No
EventCauseNonStdy	Is there any indication of non-study-device-related factors that contributed to the occurrence of the event			Yes, No
DKAOutcome	Outcome			Fully recovered, Other, Unknown
SensorWear	Was the participant wearing a CGM sensor at the time of the event			Yes, No, Unknown
SensorGluc	CGM sensor glucose reading			
SensorGlucUnits	CGM sensor glucose units			mg/dL, mmol/L
SensorGlucUnk	Unknown: CGM sensor glucose reading			1 = Checked
AutoInsDelivWear	Was the participant wearing an automated insulin delivery system at the time of the event			Yes, No, Unknown
AutoInsDelivMode	If Yes, was the system in auto mode or manual mode			Auto Mode, Manual Mode, Unknown
InvFeelSafeToContinue	Does the investigator believe that the event is unlikely to recur, and that it is safe for the participant to continue			Yes, No

	to use the assigned therapy			
ParentLoginIDAdvEvent	Adverse Event			

AIDEDiabHypoEvent

Description: Hypoglycemic Event form

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Participant ID			
ParentLoginVisitID	Unique ID for the Visit			
HypoOccurDt	Date of event			
HypoOccurDtApprox	Date of event is approximate			1 = Checked
HypoOccurDtUnk	Unknown: Date of event			1 = Checked
HypoApproxTm	Indicate the approximate time of day of the event			00:01 - 03:00, 03:01 - 06:00, 06:01 - 09:00, 09:01 - 12:00, 12:01 - 15:00, 15:01 - 18:00, 18:01 - 21:00, 21:01 - 00:00, Unknown
GlucMeterCk	Was the glucose level checked on a home blood glucose meter			Yes, No, Unknown
GlucMeterRes	Glucose result	0.00	500.00	
GlucMeterResUnits	Glucose result units			mg/dL, mmol/L
GlucMeterResUnk	Unknown: Glucose result			1 = Checked
SensorWear	Was the participant wearing a CGM sensor at the time of the event			Yes, No, Unknown
SensorGluc	CGM sensor glucose reading			
SensorGlucUnits	CGM sensor glucose units			mg/dL, mmol/L

SensorGlucUnk	**Unknown: CGM sensor glucose reading**			**1 = Checked**
HypoSeizure	**Seizure**			**1 = Checked**
HypoLossCons	**Loss of consciousness**			**1 = Checked**
HypoReqAssist	**Required assistance**			**1 = Checked**
HypoAmbulance	**Ambulance called**			**1 = Checked**
HypoEMT	**EMT assistance**			**1 = Checked**
HypoHthCareProv	**Evaluated or treated by healthcare provider (not EMT)**			**1 = Checked**
GlucGiven	**Was glucagon given**			**Yes, No, Unknown**
HospOrER	**Was the participant hospitalized or treated in the Emergency Room**			**Yes, No, Unknown**
HospERTreatLoc	**Where was the participant treated**			**ICU only, Floor only, ICU and Floor, Emergency Room only, Unknown**
HospNumDays	**If hospitalized, duration (days)**			
HospNumDaysUnk	**Unknown: Number of days participant was hospitalized**			**1 = Checked**
EventCauseStdyDev	**Is there any evidence that a study device (e.g., blood glucose meter and/or HHM) contributed to the event**			**Yes, No**
EventCauseNonStdy	**Is there any indication of non-study device-related factors that contributed to the occurrence of the event**			**Yes, No**
HypoEventOutcome	**Outcome**			**Fully recovered, Other, Unknown**
AutoInsDelivWear	**Was the participant wearing an automated insulin delivery system at the time**			**Yes, No, Unknown**

	of the event			
AutoInsDelivMode	If Yes, was the system in auto mode or manual mode			Auto Mode, Manual Mode, Unknown
InvFeelSafeToContinue	Does the investigator believe that the event is unlikely to recur, and that it is safe for the participant to continue to use the assigned therapy			Yes, No
ParentLoginIDAdvEvent	Adverse Event			

AIDEDiabLocalHbA1c

Description: Local HbA1c form

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Patient Identifier			
ParentLoginVisitID	Unique ID for the Visit			
Visit	Visit			
HbA1cTestDt	Date of HbA1c test			
HbA1cTestMeth	Method of testing			DCA point of care, Afinion point of care, Other point of care, Lab, Unknown
HbA1cTestRes	HbA1c results	4.0	15.0	

AIDEDiabMedHistory

Description: Medical History Updates form

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Patient Identifier			
ParentLoginVisitID	Unique ID for the Visit			
Visit	Visit			
SHSinceLastVis	Reportable Hypoglycemic event			Yes, No
DKASinceLastVis	Reportable Hyperglycemia or DKA Event			Yes, No
OthAESinceLastVis	Other reportable adverse event or adverse device effect (ADE)			Yes, No
MedCondSinceLastVis	Did the participant report a new medical condition that does not meet the definition of a reportable adverse event and has not previously been recorded on the Medical Conditions Form			Yes, No
DevProbSinceLastVis	Did the participant report having any reportable device problems while using a study device since the last contact			Yes, No
MedSinceLastVis	Did the participant report any changes or new medications since the last contact			Yes, No
InsulinSinceLastVis	Did the participant report any changes in insulin type or insulin delivery method since the last contact			Yes, No

AIDEDiabPhysExam

Description: Collects Diabetes Physical Exam Form data

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Patient identifier			
ParentLoginVisitID	Unique ID for the Visit			
Visit	Visit			
Weight	Weight	1		
WeightUnits	Weight units			lbs, kg
WeightUnk	Weight not measured			1 = Checked
Height	Height	1		
HeightUnits	Height units			in, cm
HeightUnk	Height not measured			1 = Checked
BldPrSys	Blood pressure systolic	60	300	
BldPrDia	Blood pressure diastolic	30	160	
BldPrUnk	Blood pressure not measured			1 = Checked
PEHeartRt	Heart rate bpm	40	170	
PEHeartRtUnk	Heart rate not measured			1 = Checked
Temp	Temperature	34.0	106.0	
TempUnits	Temperature units			Celsius, Fahrenheit
TempUnk	Temperature not measured			1 = Checked
PEAbnormal	Were any clinically significant abnormalities found			Yes, No
PhysExamPerf	Was a physical exam performed			Yes, No
WaistCirc	Waist circumference			
WaistCircUnits	Waist circumference units			in, cm
WaistCircNotDone	Waist circumference not measured			1 = Checked

AIDEDiabScreening

Description: Collects Diabetes Screening Form data

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Patient identifier			
ParentLoginVisitID	Unique ID for the Visit			
Sex	Sex of the participant			
Ethnicity	Ethnicity			Hispanic or Latino, Not Hispanic or Latino, Unknown/not reported
Race	Race			White, Black/African American, Asian, Native Hawaiian/Other Pacific Islander, American Indian/Alaskan Native, More than one race, Unknown/not reported
DiagDt	Date of Diagnosis			
DiagDtApprox	Date of diagnosis of diabetes is Approximate			1 = Checked
DiagDtUnk	Date of diagnosis of diabetes is Unknown			1 = Checked
DiagAge	Age at diagnosis	0	99	
DiagAgeApprox	Age at diagnosis is Approximate			1 = Checked

DiagAgeUnk	**Age at diagnosis is Unknown**			**1 = Checked**
InsModPump	**Insulin modality: pump**			**1 = Checked**
InsModInjections	**Insulin modality: Injections**			**1 = Checked**
InsModInhaled	**Insulin modality: Inhaled**			**1 = Checked**
InsModNone	**Insulin modality: None**			**1 = Checked**
PumpUse	**How long has participant been using an insulin pump**			**<3 months, 3-<6 months, 6 months-<1 year, 1-<2 years, 2-<5 years, >= 5 years**
PumpType	**Manufacturer of pump**			
PumpTypeUnk	**Manufacturer of pump Unknown**			**1 = Checked**
UnitsInsTotal	**Total daily insulin in units**	**1**	**300**	
UnitsInsUnk	**Total daily insulin in units Unknown**			**1 = Checked**
UnitsInsBasilOrLongAct	**Total daily basal or long acting insulin units**	**1**	**250**	
UnitsInsBasilOrLongActUnk	**Total daily basal or long acting insulin units Unknown**			**1 = Checked**
NumPumpBolusOrShortAct	**Number of boluses, injections, or inhaled doses per day**	**0**	**50**	
NumPumpBolusOrShortActUnk	**Number of boluses, injections, or inhaled doses per day Unknown**			**1 = Checked**
BGTestAvgNumMeter	**Average number of BG tests from meter**	**0**	**30.0**	
BGTestMetDatNotAvail	**Average number of BG tests from meter not available**			**1 = Checked**
BGTestAvgNumPtRep	**Average number of BG tests from participant**	**0**	**30.0**	
BGTestPtRepNotAvail	**Average number of BG tests from participant not**			**1 = Checked**

	available			
CGMUseStat	Status of CGM use in last month			Never, In past, but not current, Current
CGMUseDur	How long has the participant been using CGM			<3 months, 3-<6 months, 6 months-<1 year, 1-<2 years, 2-<5 years, >= 5 years
CGMUseDevice	Which CGM device is being used			Abbott, Dexcom, Medtronic, Senseonics
CGMUseLast1Month	In the past month, how many days has the participant used the CGM	1	30	
CGMUseLast1MonthUnk	In the past month, how many days has the participant used the CGM Unknown			1 = Checked
PtCurrMed	Is subject currently taking any medication			Yes, No
SHNumEverB	Estimated number of severe hypoglycemic events ever (as defined below)			0, 1, 2, 3, 4, 5-10, >10
SHMostRecentB	Estimate of when most severe hypoglycemic event (as defined below) occurred			< 3 months ago, 3-<6 months ago, 6-<12 months ago, 1-<5 years ago, 5-<10 years ago, >=10 years ago
SHLast12MonthsB	If <12 months ago, how many events occurred in the last 12 months			1, 2, 3, 4, 5-10, >10
SHSeizComaNumB	Estimated number of severe hypoglycemic events involving seizure/loss of consciousness ever			0, 1, 2, 3, 4, 5-10, >10
SHSeizComaLast12MonthsB	If 1 or more severe hypoglycemic events			0, 1, 2, 3, 4, 5-10, >10

	involving seizure/loss of consciousness, how many events occurred in the last 12 months			
DKANumEverB	Estimated number of definite or probable DKA events ever (as defined below and including DKA at diagnosis)			0, 1, 2, 3, 4, 5-10, >10
DKAMostRecentB	If 1 or more definite or probable DKA events, estimate of when most recent definite or probable DKA event occurred			< 3 months ago, 3-<6 months ago, 6-<12 months ago, 1-<5 years ago, 5-<10 years ago, >=10 years ago
DKALast12MonthsB	If <12 months ago, how many events occurred in the last 12 months			1, 2, 3, 4, 5-10, >10
BGTestMeterFreq	Frequency of meter download blood glucose tests			per day, per week
BGTestPtRepFreq	Frequency of participant reported blood glucose tests			per day, per week

AIDEDiabSocioEcon

Description: Diabetes Socioeconomic Information form

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Participant ID			
ParentLoginVisitID	Unique ID for the Visit			
EducationLevel	Education Level			Less than High School, High school graduate/diploma/G

				ED, Technical/Vocational, Associate Degree (AA), College Graduate (Bachelor's Degree or Equivalent), Advanced Degree (e.g. Masters, PhD, MD), Unknown, Does not wish to provide, Less than 1st grade, 1st, 2nd, 3rd, or 4th grade, 5th or 6th grade, 7th or 8th grade, 9th grade, 10th grade, 11th grade, 12th grade - no diploma, Some college but no degree, Bachelor's Degree (BS,BA,AB), Master's Degree (MA, MS, MSW, MBA, MPH), Professional Degree (MD, DDS, DVM, LLB, JD), Doctorate Degree (PhD, EdD)
AnnualIncome	**Annual Income**			**Less than $25,000, $25,000 to less than $35,000, $35,000 to less than $50,000, $50,000 to less than $75,000, $75,000 to less than $100,000, $100,000 to less than $200,000, $200,000 or more, Unknown, Does not wish to provide**
InsPrivate	**Private Insurance**			**1 = Checked**

InsMedicare	Medicare Insurance			1 = Checked
InsMedicaid	Medicaid insurance			1 = Checked
InsOtherGov	Other government-sponsored health coverage			1 = Checked
InsNoCoverage	No insurance coverage			1 = Checked
InsUnk	Insurance coverage unknown			1 = Checked
InsNoAns	Insurance coverage no answer			1 = Checked

AIDEDiabTreatment

Description: Collects Diabetes Treatment Form data

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Patient identifier			
ParentLoginVisitID	Unique ID for the Visit			
Visit	Visit			
InsModPump	Insulin modality: pump			1 = Checked
InsModInjections	Insulin modality: Injections			1 = Checked
InsModInhaled	Insulin modality: Inhaled			1 = Checked
InsModNone	Insulin modality: None			1 = Checked
PumpType	Manufacturer/model of pump			
PumpTypeUnk	Manufacturer/model of pump Unknown			1 = Checked
UnitsInsTotal	Total daily insulin in units	1	300	
UnitsInsUnk	Total daily insulin in units Unknown			1 = Checked

UnitsInsBasilOrLongAct	Total daily basal insulin for pump users or long/intermediate acting insulin (including NPH) for injection users, in units	1	250	
UnitsInsBasilOrLongActUnk	Total daily basal or long acting insulin units Unknown			1 = Checked
NumPumpBolusOrShortAct	Number of boluses per day for pump users, number of injections of short acting insulin per day for injection users, or number of inhaled doses per day for short acting inhaled insulin	0	50	
NumPumpBolusOrShortActUnk	Number of boluses, injections, or inhaled doses per day Unknown			1 = Checked
BGTestAvgNumMeter	Average number of blood glucose tests from meter	0	30.0	
BGTestMetDatNotAvail	Average number of blood glucose tests from meter not available			1 = Checked
BGTestAvgNumPtRep	Average number of blood glucose tests from participant	0	30.0	
BGTestPtRepNotAvail	Average number of blood glucose tests from participant not available			1 = Checked
BGTestMeterFreq	Frequency of meter download blood glucose tests			per day, per week
BGTestPtRepFreq	Frequency of participant reported blood glucose tests			per day, per week

AIDEDiabUnschedContact

Description: Diabetes unscheduled contact form

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Unique Patient Identifier			
ParentLoginVisitID	Unique ID for the Visit			
ContType	Contact Type			Clinic visit, Phone call, Email, Text, Home visit, Video chat/Skype
ContPers	Contact was made with			Participant, Parent/Guardian, Spouse or significant other, Other
ContReasDevTrain	Reason for Contact: Participant needed additional device training			1 = Checked
ContReasProtTrain	Reason for Contact: Participant needed additional protocol/procedural training			1 = Checked
ContReasDiabMgmt	Reason for Contact: Participant had a question or problem with diabetes management			1 = Checked
ContReasAE	Reason for Contact: Participant had a potential adverse event			1 = Checked
ContReasDevIssue	Reason for Contact: Participant had a potential device deficiency/issue			1 = Checked
ContReasSupplies	Reason for Contact: Participant needed study supplies			1 = Checked
ContReasOth	Reason for Contact: Other			1 = Checked

ContPersPartic	Contact was made with: Participant			1 = Checked
ContPersParent	Contact was made with: Parent/Guardian			1 = Checked
ContPersSpouse	Contact was made with: Spouse or significant other			1 = Checked
ContPersOth	Contact was made with: Other			1 = Checked

AIDEEligSrcDataCapt

Description: Captures Eligibiltiy Source Data

Data Source: Case Report Form

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Participant ID			
ParentLoginVisitID	Unique ID for the Visit			
MedRecSupElig	Are there medical records for participant screening that can be reviewed to support eligibility			Yes, No
UseRapidActIns	Willing to use a rapid acting insulin compatible with the Tandem t:slim X2 pump (currently aspart and lispro; other rapid acting insulins likely to be approved for pump use prior to study initiation such as Fiasp)			1 = Checked
CarbRatioMealBol	Familiar with and willing to use a carbohydrate ratio for meal boluses			1 = Checked
StudyDevWithAID	Willing to use study devices and automated insulin			1 = Checked

	delivery features			
IndManageDiab	**Independently managing his/her diabetes with respect to insulin administration and glucose monitoring (may include assistance from spouse or other caregiver)**			**1 = Checked**
UnderstandProt	**Understands the study protocol and agrees to comply with it and is able to successfully pass the consent understanding assessment with no more than 2 attempts**			**1 = Checked**
CompEnglish	**Comprehends written and spoken English**			**1 = Checked**
NoRiskCond	**No condition, which in the opinion of the investigator or designee, would put the participant or study at risk, including vision or hearing impairment and any contraindication to the use of any of the study devices per FDA labeling**			**1 = Checked**
NoAdhesiveAllergy	**No known adhesive allergy or skin reaction during the run-in pre-randomization phase or previous difficulty with pump and CGM insertions that would preclude participation in the randomized trial**			**1 = Checked**
NoMedPsychCond	**No presence of a significant medical or psychiatric condition or use of a medication that in the judgment of the investigator may affect completion of any aspect of the protocol, or is**			**1 = Checked**

	likely to be associated with life expectancy of <1 year			
Age65	**Age >= 65 years old**			
T1DDiagnosis	**Type 1 diabetes (as diagnosed clinically)**			
T1DDuration1Yr	**Type 1 diabetes duration of at least 1 year**			
HbA1cInclCrit	**HbA1c from an approved point of care analyzer or local lab with an HbA1c value of <10.0% (can use a value obtained as part of usual care within the prior 6 months of the screening visit)**			
BasalBolusRegimen	**Must be on a basal/bolus insulin regimen via an insulin pump or multiple daily injections (MDI)**			
GFR30InclCrit	**Most recent GFR >= 30 ml/min/m2 from local lab within the past 6 months**			
PLGSOrHCLExlCrit	**Use of predictive low-glucose suspend technology or hybrid closed loop insulin deliver in the past 3 months**			
DKAPrev6Months	**History of 1 or more Diabetic Ketoacidosis episode in the previous 6 months**			
DementiaExlCrit	**Clinical diagnosis by a primary care provider, neurologist or psychiatrist of dementia, in the investigator's opinion a suspected severe cognitive impairment such that it would preclude ability to understand the study or use devices, or a score of <6 out**			

	of 15 on the Mini 5 Min Montreal Cognitive Assessment (mild cognitive impairment is not an exclusion)			
ConUseNonInsExlCrit	Concurrent use of any non-insulin glucose-lowering agent other than metformin (including GLP-1 agonists, Symlin, DPP-4 inhibitors, SGLT-2 inhibitors, sulfonylureas)			
Stg4Or5RenalDisease	Stage 4 or 5 renal disease			
DeviceDownload	Ability to download study devices at home or if not able to download at home willing to come into clinic to bring devices for download of data at visits and as needed for safety			1 = Checked
ActiveGlucPrescription	Has an active prescription for glucagon and willing and able to have glucagon available			1 = Checked

Visit				
UseAssignedDevice	Is the participant still using the study device/treatment they were assigned to for the current period?			Yes, No
DeviceCurrUse	Select device/treatment the participant is using currently?			t:slim X2 with Control-IQ, t:slim X2 with Basal-IQ, t:slim X2 SAP, Dexcom G6 only, Stopped using all devices, Other
SensorUse	Based on participant report, on average how many days per week does the participant use the sensor?			0, 1, 2, 3, 4, 5, 6, 7
SensorUseSkin	Skin Iritation			1 = Checked
SensorUseHesitant	Hesitant/uncomfortable using device			1 = Checked
SensorUsePainful	Uncomfortable or painful to wear			1 = Checked

SensorUseAlarm	**Alarms too frequently**			**1 = Checked**
SensorUseNotAccurate	**Does not provide accurate readings**			**1 = Checked**
SensorUseTooDifficult	**Too difficult to operate**			**1 = Checked**
SensorUseUseTooBusy	**Too busy to use it**			**1 = Checked**
SensorUseForget	**Forget to use it**			**1 = Checked**
SensorUseNotHelpful	**Does not provide information that is helpful for diabetes management**			**1 = Checked**
SensorUseTooBig	**Too big or interfered with clothing or activity**			**1 = Checked**
SensorUseOther	**Sensor use less than 6 days: Other**			**1 = Checked**
PumpSetChg	**Were any changes made to the participant's insulin pump settings to optimize therapy?**			**Yes, No**
PumpSetChgForSafety	**If Yes, were the changes made to address safety concerns with hypoglycemia or hyperglycemia?**			**Yes, No**
QuesAboutStudyDevices	**Did the participant have any questions about using any of the study devices?**			**Yes, No**
CGMReviewed	**Were the CGM data reviewed with the participant during the visit?**			**Yes, No**
CGMReviewedNoReas	**If No, enter reason**			
CGMReviewedPlanAltered	**If Yes, was the participant's diabetes management plan altered at the study visit based on review of CGM data?**			**Yes, No**
TandDownloaded	**Were data downloaded from the Tandem t:slim X2 pump?**			**Yes, No**

CGMUseNoBGMConfirm	**In the past 7 days has the participant used the CGM for dosing meal time insulin without BGM fingerstick confirmation?**			**Yes, No**
SmartphoneUse	**Does the participant also use smartphone as a display device?**			**Yes, No**
MobileAppUse	**If Yes, does the participant have someone else following their sensor data through the Dexcom Share/Follow Mobile application?**			**Yes, No**
MobileAppSpousePartner	**Select the following people the participant is using the SHARE/FOLLOW application with: Spouse/partner**			**1 = Checked**
MobileAppChild	**Select the following people the participant is using the SHARE/FOLLOW application with: Child**			**1 = Checked**
MobileAppGrandchild	**Select the following people the participant is using the SHARE/FOLLOW application with: Grandchild**			**1 = Checked**
MobileAppSibling	**Select the following people the participant is using the SHARE/FOLLOW application with: Sibling**			**1 = Checked**
MobileAppFriend	**Select the following people the participant is using the SHARE/FOLLOW application with: Friend**			**1 = Checked**
MobileAppOther	**Select the following people the participant is using the SHARE/FOLLOW application with: Other**			**1 = Checked**
SkinReaction	**Did the participant experience a skin reaction in**			**Yes, No**

	the area where the CGM sensor was worn?			
SkinReactionRedness	**Did the participant experience a skin reaction in the area where the CGM sensor was worn: Redness**			**1 = Checked**
SkinReactionSwelling	**Did the participant experience a skin reaction in the area where the CGM sensor was worn: Swelling**			**1 = Checked**
SkinReactionPain	**Did the participant experience a skin reaction in the area where the CGM sensor was worn: Pain**			**1 = Checked**
SkinReactionBruising	**Did the participant experience a skin reaction in the area where the CGM sensor was worn: Bruising**			**1 = Checked**
SkinReactionOther	**Did the participant experience a skin reaction in the area where the CGM sensor was worn: Other**			**1 = Checked**
SuppliesAssigned	**Yes, all applicable study supplies were assigned per study procedure manual expectations and all supplies have been updated in the Inventory Tracking Application**			**1 = Checked**
ExtensionPhase	**Is the participant willing to continue on to the extension phase**			**Yes, No**
SuppliesNotAssigned	**No, sufficient study supplies were previously assigned per study procedure manual expectations and all supplies have been updated in the Inventory Tracking Application. Participant was**			**1 = Checked**

	not assigned additional supplies at this visit

AIDETandemCGMDATAGXB

Description: CGM Data from Tandem Pump

Data Source: Export from Tandem Pump

Field_Name	Description	Min	Max	Possible_Values
RecID	Unique record ID in table			
PtID	Participant ID			
ParentAIDEDeviceUploadsID	RecID in tblAIDEDeviceUploads			
ParentAIDETandemReviewID	RecID in tblAIDETandemReview			
DataDtTm	Local time of event			
TandemIndex	Index from Tandem file			
AlgorithmState	Algorithm State			
CGMDataType	0-31 Bitmask Bit 0 - Five Minute Reading (FMR) Bit 1 - BackFill|Bit 2 - Immediate Match Value|Bit 3 - Calibration|Bit 4 - None			
currentGlucoseDisplayValue	40-400~ mg/dL 40-400 are legitimate glucose values. 0 is used when the reading is high or low. Use of this field depends on the glucoseValueStatus field.			
EGVInfoBitmask	Bit 0 - Five Minute Reading (FMR) Bit 1 - Backfill|Bit 2 - Immediate match value|Bit 3 - CRR (EGV is result of calibration~ bit:14 was set to 1)|Bit 4 - NO_EGV message|Bit 5 - Valid			

	timestamp|Bit 6 - Valid EGV (valid range)|Bit 7 - Valid algState (algState is 6~7~ or 14)|Bit 8 - EGV was successfully added to CGM subsystem array (e.g.~|not a duplicate)			
glucoseValueStatus	0 =currentGlucoseDisplayValue contains the glucose reading|1 =The glucose reading is high~ currentGlucoseDisplayValue set to 0|2 =The glucose reading is low~ currentGlucoseDisplayValue set|to 0			
Interval	Age of transmitter information. Non-zero for backfilled information.			
IntervalAdjustment	Previous CGM data was adjusted by this amount.			
Rate	EGV rate of change.|To convert to mg/dL/min take the Rate/10.|Example: Rate =50 would be equal to 5 mg/dL/min			
RSSI	Bluetooth RSSI			
TimeStamp	Seconds since 1/1/2008.			
DataDtTm_adjusted	Local time of event -- Including adjustments made at Jaeb			
Unusable	Flag indicating that record is unusable			
UnusableReason	Reason why record is unusable			
Sernum	Pump serial number

SampleResultTypeID	SampleResultTypeID from tblSTASampleResultsConfig			

cgmAnalysis

Description: Analysis dataset containing one record per CGM reading used to calculate CGM metrics for the randomized crossover phase.

Data Source: The primary source of CGM data was the Tandem pump. The Dexcom Clarity data was the secondary source of data and was used where possible to fill in gaps in the Tandem data.

Field_Name	Description	Min	Max	Possible_Values
PtID	Participant ID			
period	Study period			0 = Baseline, 1 = Period 1, 2 = Period 2, 3 = Period 3
weeks	Period weeks			Baseline, Weeks 5-12, Weeks 5-6, Weeks 7-8, Weeks 9-10, Weeks 11-12
treatment	Randomized treatment for the period			Baseline, HCL, PLGS, SAP
dataDtTm	Device date and time			
glucValue	Glucose value (mg/dL)	39	401	
nightFlg	Flag for if the device time was between 12 am to <6am.			0 = Daytime, 1= Nighttime

cgmAnalysisExt

Description: Analysis dataset containing one record per CGM reading used to calculate CGM metrics for the extension phase.

Data Source: The primary source of CGM data was the Tandem pump. The Dexcom Clarity data was the secondary source of data and was used where possible to fill in gaps in the Tandem data.

Field_Name	Description	Min	Max	Possible_Values
PtID	Participant ID			
period	Study period			4 = Extension
weeks	Period weeks			Weeks 5-12
dataDtTm	Device date and time			
glucValue	Glucose value (mg/dL)	39	401	
nightFlg	Flag for if the device time was between 12 am to <6am.			0 = Daytime, 1= Nighttime

gluIndices

Description: Analysis dataset containing one record per participant, period, and time of day containing CGM-measured outcomes for the randomized crossover phase.

Data Source: Calculated from the cgmAnalysis dataset.

Field_Name	Description	Min	Max	Possible_Values
PtID	Participant ID			
period	Study period			0 = Baseline, 1 = Period 1, 2 = Period 2, 3 = Period 3
weeks	Period weeks			Baseline, Weeks 5-12, Weeks 5-6, Weeks 7-8, Weeks 9-10, Weeks 11-12
timeOfDay	Time of day			1.24 Hr, 2.Daytime, 3.Nighttime
treatment	Randomized treatment for the period			Baseline, HCL, PLGS, SAP
gluMean	Mean glucose (mg/dL)			
gluInRange	Percent of time spent in range 70-180 mg/dL	0%	100%	
gluInRange140	Percent of time spent in range 70-	0%	100%	

	140 mg/dL			
gluBelow70	Percent of time spent <70 mg/dL	0%	100%	
gluBelow60	Percent of time spent <60 mg/dL	0%	100%	
gluBelow54	Percent of time spent <54 mg/dL	0%	100%	
gluAbove180	Percent of time spent >180 mg/dL	0%	100%	
gluAbove250	Percent of time spent >250 mg/dL	0%	100%	
gluAbove300	Percent of time spent >300 mg/dL	0%	100%	
gluLBGI	Low blood glucose index			
gluHBGI	High blood glucose index			
gluHours	Hours of CGM data used to calculate metrics			
gluSD	Glucose standard deviation			
gluCV	Glucose coefficient of variation	0%	100%	
gluHypo54Rate	Hypoglycemic event rate per week of CGM data. An event is defined as 15 or more consecutive minutes <54 mg/dL. At least 2 sensor values <54 mg/dl that are 15 or more minutes apart plus no intervening values ≥54 mg/dl are required to define an event. The end of the hypoglycemic event is defined as a minimum of 15 consecutive minutes with a sensor glucose concentration ≥70 mg/dl. At least 2 sensor values ≥70 mg/dl that are 15 or more minutes apart with no intervening values <70 mg/dl, are required to define the end of an event. When a hypoglycemic event ends, the study participant becomes eligible for a new event			

gluIndicesExt

Description: Analysis dataset containing one record per participant, period, and time of day containing CGM-measured outcomes for the extension phase.

Data Source: Calculated from the cgmAnalysisExt dataset.

Field_Name	Description	Min	Max	Possible_Values
PtID	Participant ID			
period	Study period			4 = Extension
weeks	Period weeks			Weeks 5-12
timeOfDay	Time of day			1.24 Hr, 2.Daytime, 3.Nighttime
extSystemSel	System the participant selected at the beginning of the extension phase			t:slim X2 with Basal-IQ, t:slim X2 with Control-IQ
extSystemActual	Actual system the participant used during the extension phase			t:slim X2 with Basal-IQ, t:slim X2 with Control-IQ, Multiple
gluMean	Mean glucose (mg/dL)			
gluInRange	Percent of time spent in range 70-180 mg/dL	0%	100%	
gluInRange140	Percent of time spent in range 70-140 mg/dL	0%	100%	
gluBelow70	Percent of time spent <70 mg/dL	0%	100%	
gluBelow60	Percent of time spent <60 mg/dL	0%	100%	
gluBelow54	Percent of time spent <54 mg/dL	0%	100%	
gluAbove180	Percent of time spent >180 mg/dL	0%	100%	
gluAbove250	Percent of time spent >250 mg/dL	0%	100%
